

PF15311: Youth Venom Serum

ACTIVE INGREDIENTS:

μ-CONOTOXIN III: a brand-new patented neuropeptide that reproduces - without side effects - the formidable wrinkle relaxing action of the potent venom produced by the Conus conors seashell.

Thanks to its 3D relaxing action it helps relax micro skin contractions and reduce the number, volume and depth of even the deepest and consolidated wrinkles;

glycans: precursors of hyaluronic acid with filling effect on static wrinkles;

jojoba second skin: nourishing and smoothing action;

hyaluronic acid: regulates the optimal level of hydration of the skin;
